

Assembly Instructions for Attaching Morency Rests to the Work Surface Extensions: Model #'s WSE-2024 and WSE-3024

Parts Listing *Quantity* *Diagram I.D.*

Wooden Surface	1	A
Allen Bolts	2	B
Washers	2	C
Allen Wrench	1	N/A

Verify that your package contains the parts listed above. If any parts are missing, please contact your distributor for replacements.

Remove the Wooden Surface (A) from its packaging. Remove the Morency Rest forearm support (purchased separately) from its packaging. Place the Morency Rest fabric side down on a table top with the curved section of the rest towards your body. (See sketch above)

Place the WSE on top of the Morency Rest forearm support and align the two holes. Line the rest up with the WSE as shown. (see sketch above).

Place a Washer (C) on each of the Allen Bolts (B). Gently thread the Allen bolts into the Morency Rest's threaded inserts with your fingers. Use the Allen wrench (D) to tighten the bolts.

Turn the assembly over. Position it as desired on your work surface. Place your monitor on top of the WSE. Position the keyboard directly in front of the Morency Rest. If it is a mouse model position the mouse pad (not included) next to the keyboard, and in front of the rest.
